

## Unit 11 Study Guide

\* All year we've been telling you the study links, journal pages, SRB pages and games to study from, but now it's your turn to find them. Go back through your journal, study links, and SRB to find the pages that support each skill. (Remember, some skills may have been introduced in an earlier unit.)

- 1) Can you recognize geometric solids based on their properties?
- 2) Can you calculate the volume of rectangular prisms?
- 3) Can you find the radius and diameter of a circle and use them to calculate circumference and area?
- 4) Can you calculate the volume of a cylinder?
- 5) Can you create a number sentence for given problem?
- 6) Can you find the area of a regular polygon?
